Family Home Care earns status as Top Employer

We are pleased to announce that Family Home Care, a major provider of in-home care to hundreds of families in the Inland Empire, has been named as one of the top 100 Companies to work for in Washington State. This is the third time FHC has earned this distinction which is gained by nomination, an exhaustive study of the employment culture, benefit, compensation practices, and innovative employee engagement programs. 75% of the score is based on employee feedback to the selection committee via anonymous survey.

The award was announced and received at the Westin Hotel in Seattle on June 17, 2014. Jeff Wiberg, President, and Dawn Potts, HR Manager were in attendance to receive the award.

“Our formula is simple: if we treat our employees right – they, in turn, will treat our clients right, and Family Home Care will achieve success.” Explains Jeff Wiberg, President.

Several employees were excited and proud, however, not surprised. Here are some of their comments on FHC’s social media page in response to the announcement.

“Not too surprised! This is a GREAT company to work for! In fact, my family was thinking about moving to the west side, but FHC was one of the reasons why we are staying!” – Wendy Decker

“It really is an awesome company. There is not any other company in this area I would even consider working for in this line of work.” – Sharla Clanton

“Best employer I could ask for! Flexible schedule, lots of great benefits, and they really care about providing an excellent standard of care for their clients.” – Rebecca Schwartz

About Family Home Care

Family Home Care provides personal in-home care to its clients on a hourly basis. Family Home Care, established in 1966, is headquartered in Liberty Lake, WA and serves hundreds of clients in Spokane, Whitman & Asotin counties in Washington & Kootenai, Latah, Nez Perce counties in Idaho.
